BOYS GUIDE: WHAT TO WEAR

## CLOTHING

Wear what you love and be who you are. We want to capture your unique style and personality! Be sure to choose a variety of colors and styles. Vary the dress level: some dressy, some casual, some in between. Some shots are up close, others are full length. Plan outfits from head to toe down to your shoes and socks. Don't forget about the extras (belts, watches, sunglasses, etc.).

3 outfits are recommended.

## PACKING $\not \subset{ }^{\circ}$ PREP

I will have a cart on wheels at the shoot, and we can put your clothing in it. We'll be walking, so be sure your belongings are easy to manage. If you have shirts that will wrinkle, please make sure you have them on hangers. Once on location, we wont be returning to the car in between changes, so make sure that what you bring can be carried or placed in the rolling cart.

## CHANGING ON LOCATION

The locations for changing are intermittent and we work with the restrooms in the area we are at. Please be prepared that while shooting in downtown and on location areas, we may not have access to a super clean changing area. Just be prepared to do quick changes and know that in the end, your portraits will be amazing if you can work with what we will have to work with the day of your shoot.

## CLOTHING WHAT TO AVOID

Please avoid clothing with very small plaid patterns and fine pin-stripes. The small patterns cause a moiree pattern in digital images.

## COMPLEXION

We retouch blemishes, so don't worry
about minor breakouts. Regarding scars and moles: we don't remove anything permanent unless you request us to do so. Our goal is to create images that look natural. Just let us know your preference.

## HAIR

Avoid changing your hairstyle or cutting your hair right before your session. Do it at least 6 to 10 days ahead of your photo session appointment.
